SCHRËTT 12 Klickt op **Publish**, fir Är Kopie als Live-Theme ze publizéieren.

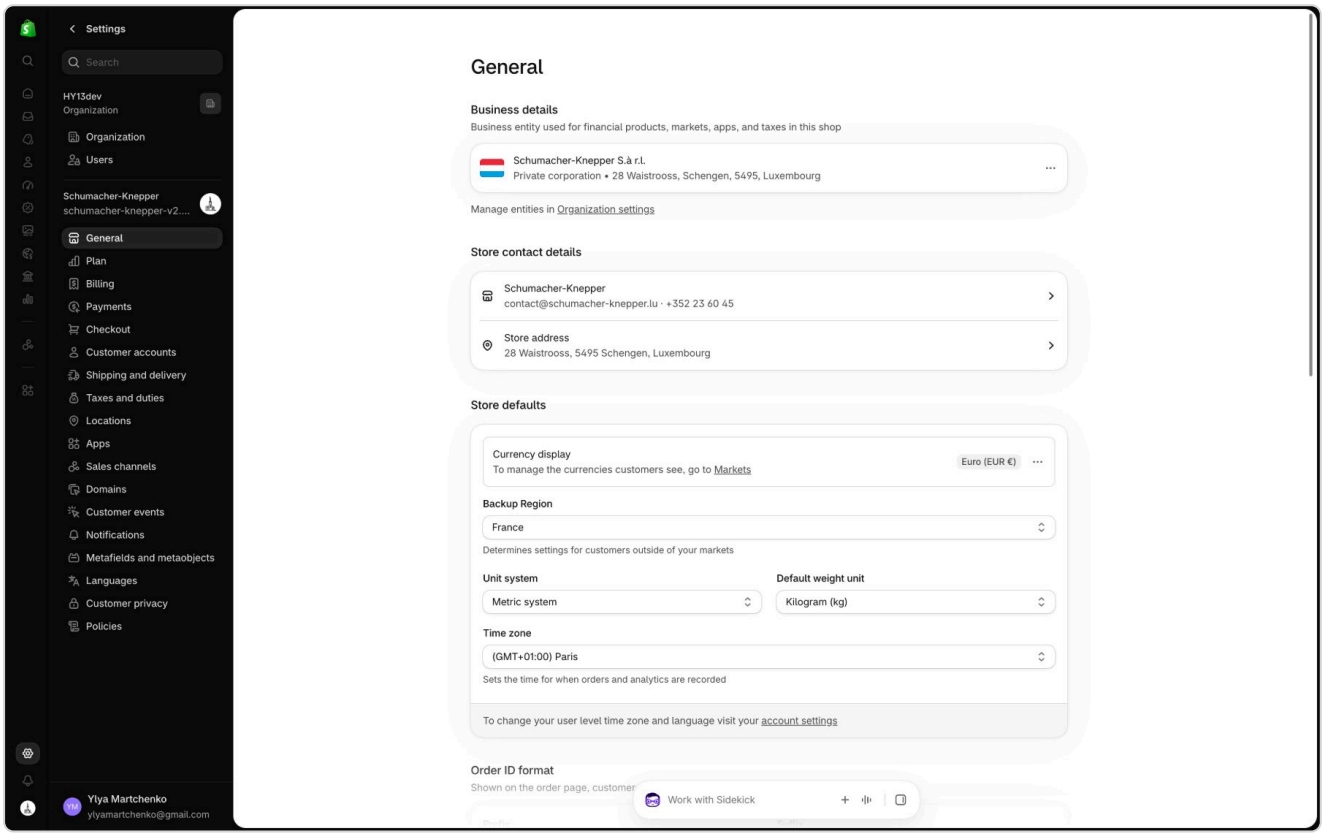

2. Filteren, Kollektiounen a Produiten

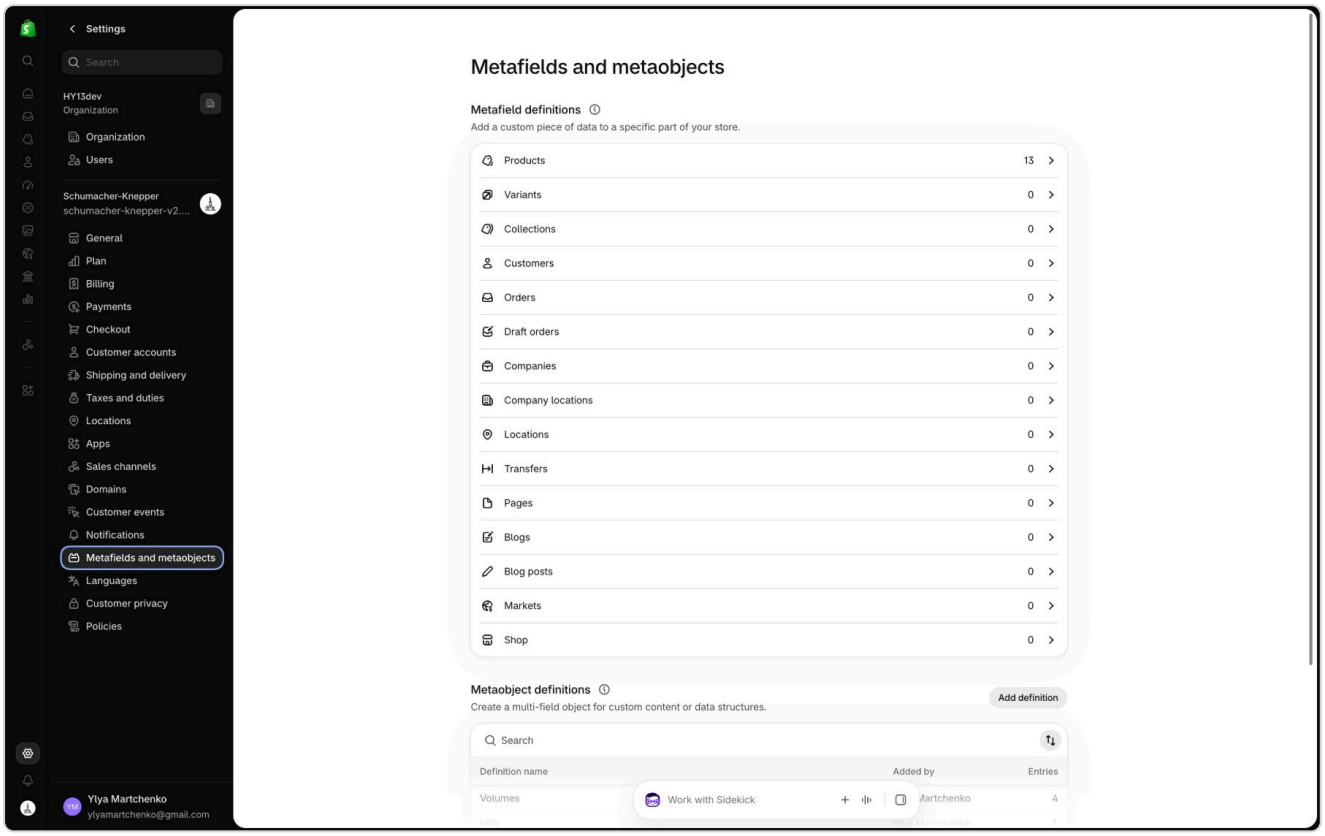

D'Filteren am Shop (zum Beispill *Volume*) baséieren op **Metaobjects**. Fir e Filter derbäizesetzen, maacht Dir eng Metaobject-Definitioun, setzt hir Entréeën derbäi an dann riicht Dir se an der App **Search & Discovery** als Filter an.

Eng Metaobject-Definitioun erstellen

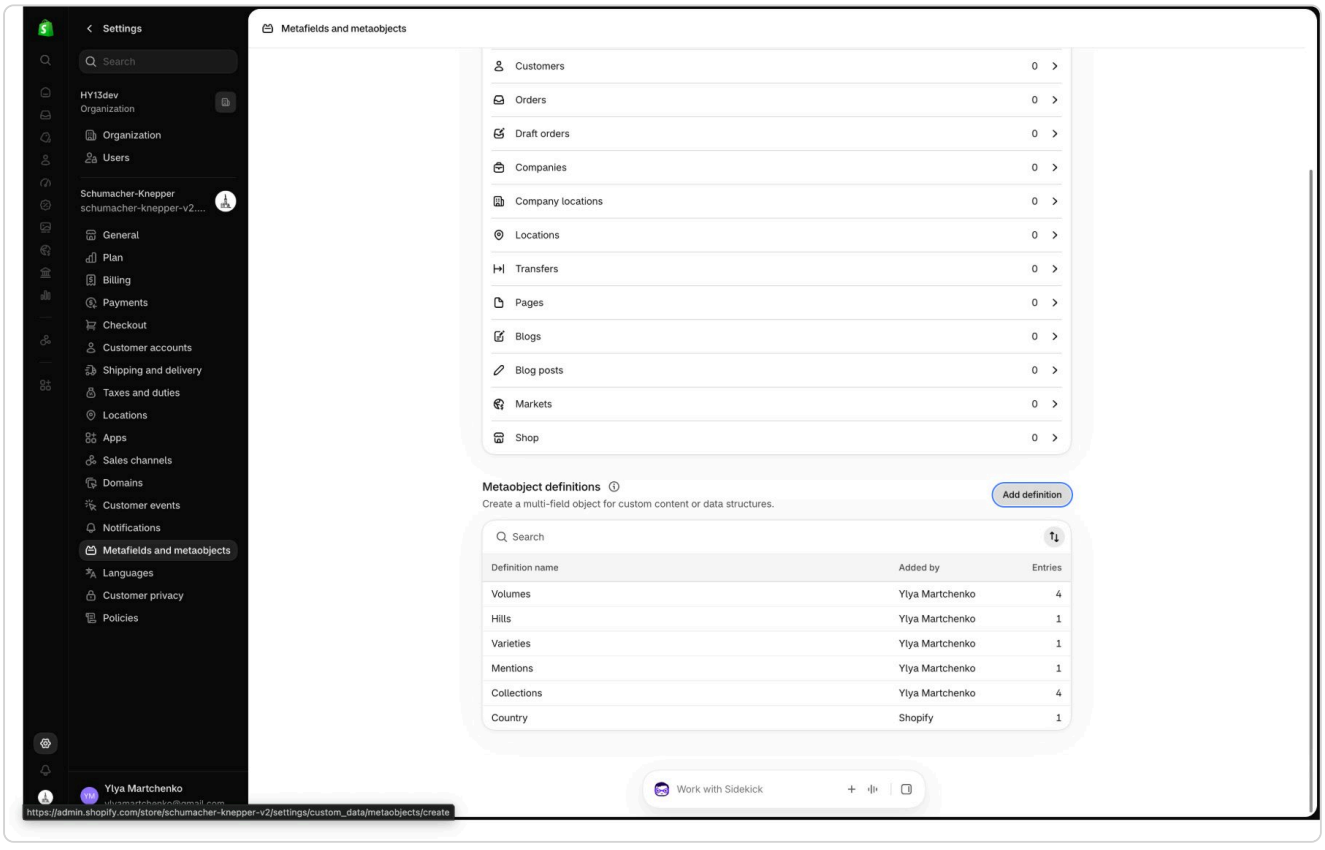

SCHRËTT 1 Klickt ënne lénks op d'Zännrad-Symbol, fir d'**Settings** opzemaachen.

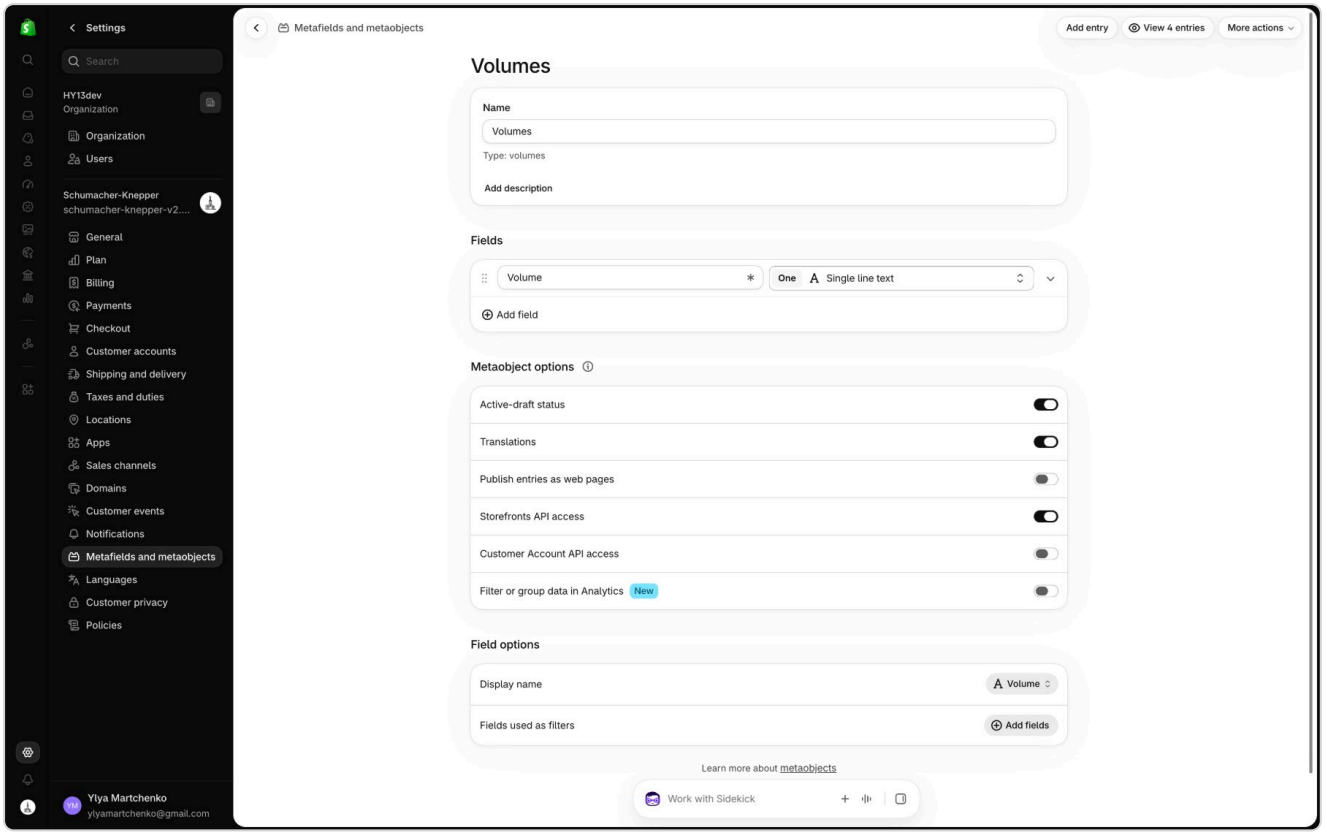

SCHRËTT 2 Klickt op **Metafields and metaobjects**.

SCHRËTT 3 Klickt ënner **Metaobjects** op **Add definition**.

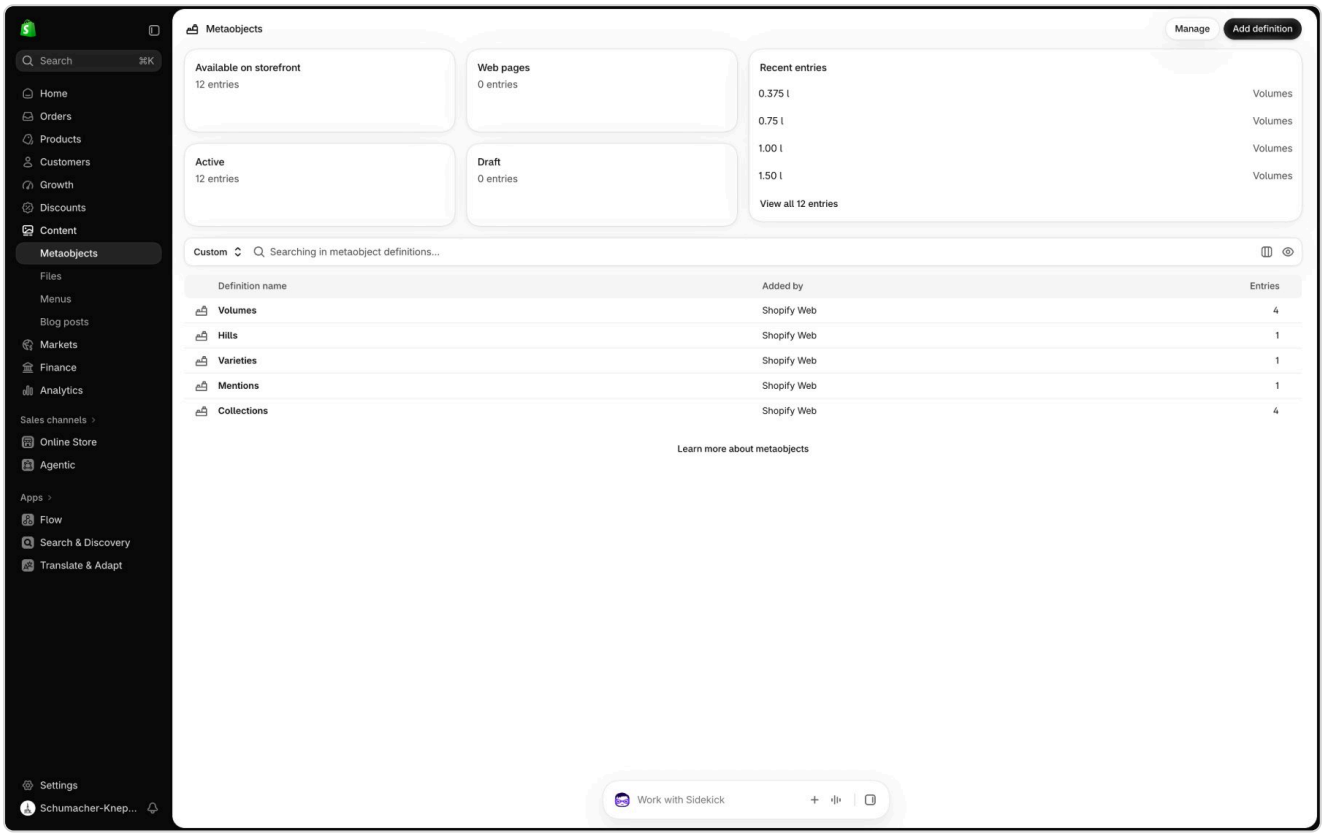

SCHRËTT 4 Gitt der Definitioun en Numm am Plural (zum Beispill *Volumes*). Gitt dem Feld en Numm am Singular (zum Beispill *Volume*) a wielt den Typ **Single line text**.

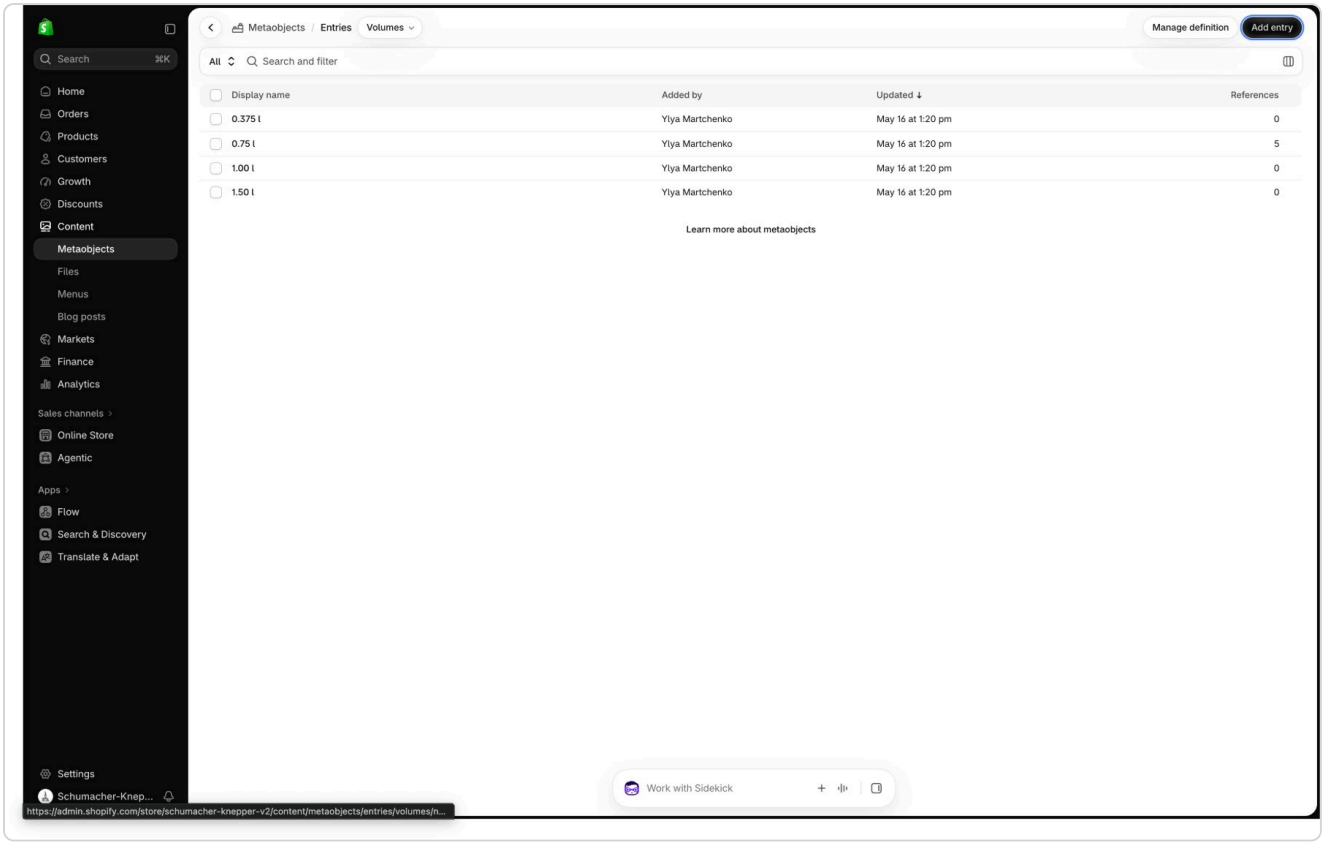

Entréeën derbäisetzen (Filterwäerter)

SCHRËTT 5 Nom Späichere gitt zréck op d'Haaptsäit, klickt op **Content** a bleift ënner **Metaobjects**. Wielt dat gewënschte Metaobject aus.

> **Tipp:** Et gëtt e méi séiere Wee, fir e Metaobject derbäizesetzen: amplaz iwwer d'**Settings** ze goen, benotzt de Knäppchen **Add** uewe riets op dëser Säit.

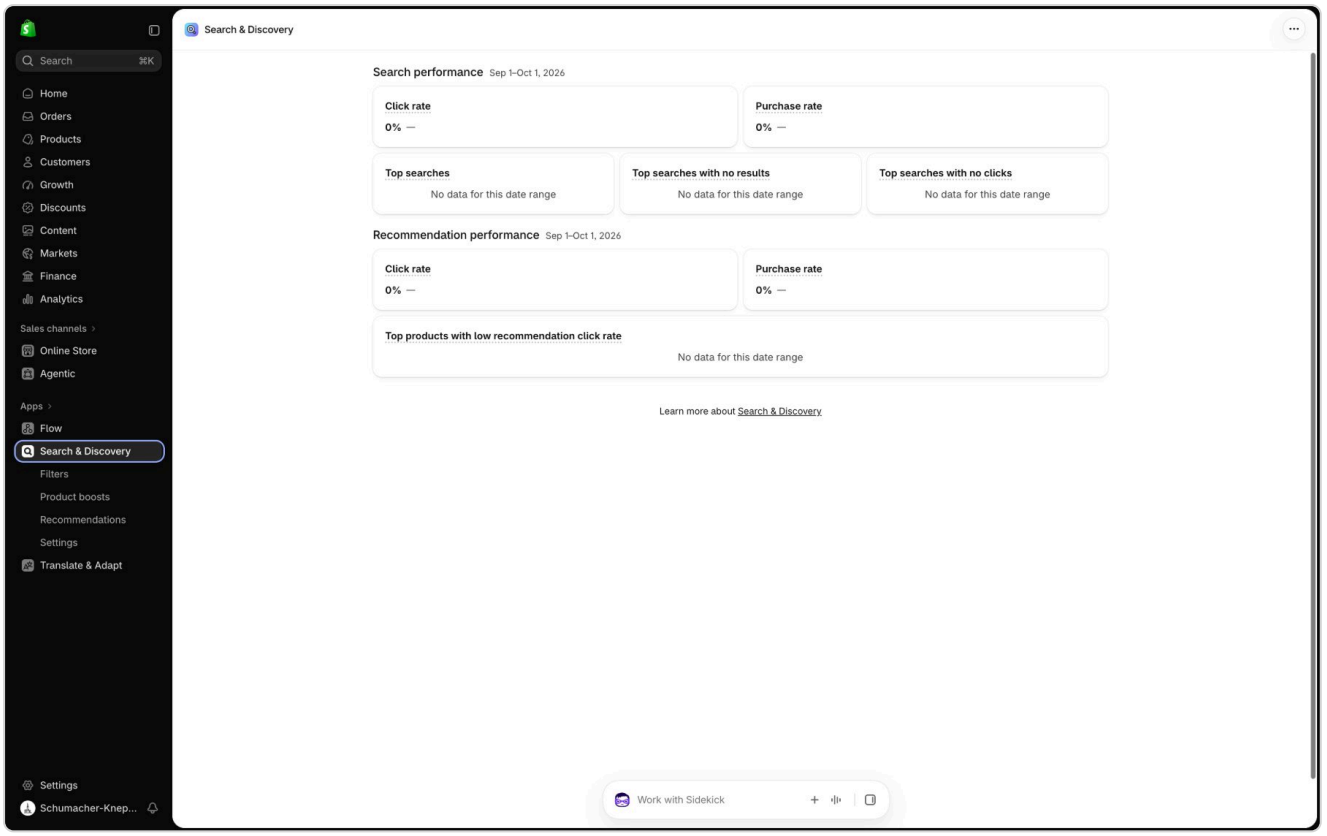

SCHRËTT 6 Nodeems Dir dat Metaobject ausgewielt hutt, klickt op de Knäppchen uewe riets, fir eng Entrée derbäizesetzen.

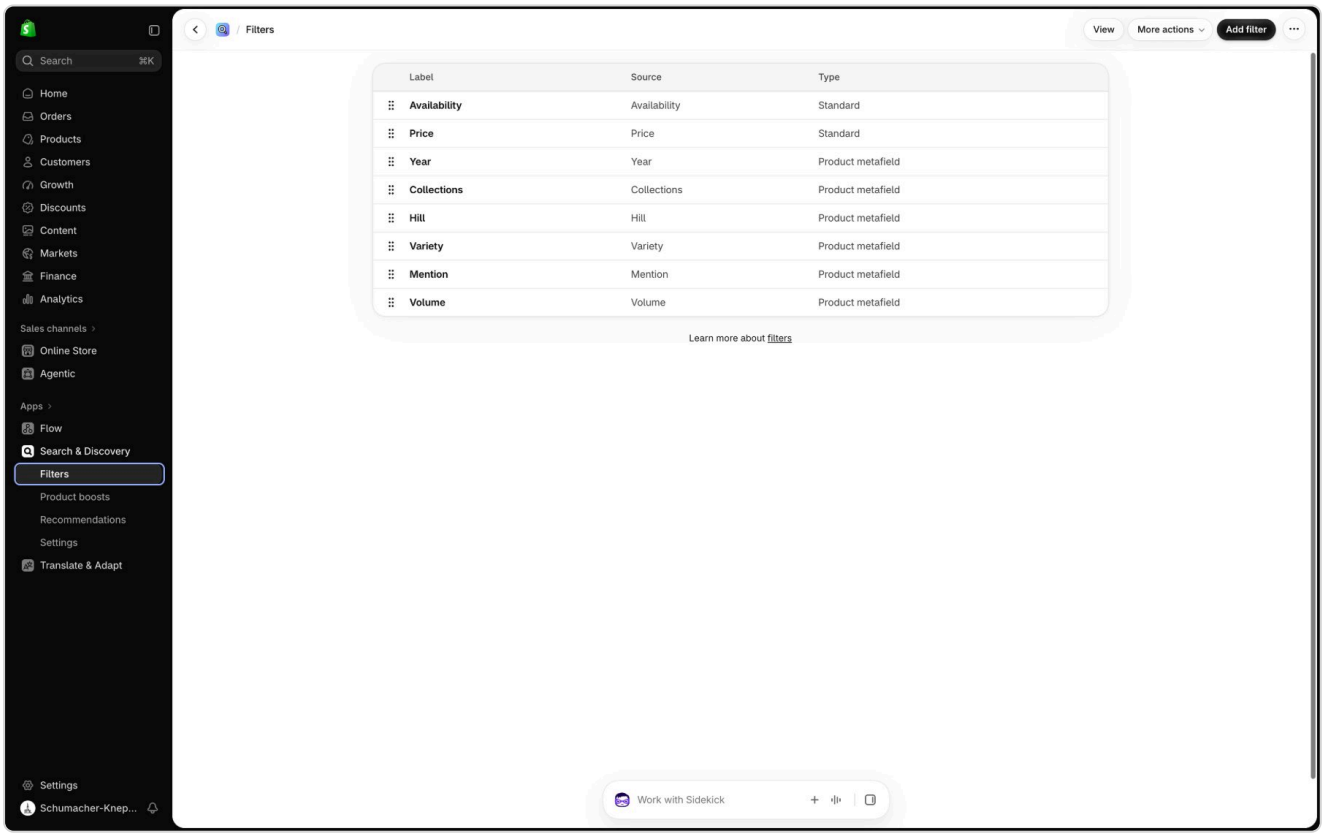

De Filter an Search & Discovery ariichten

> **Hiweis:** Maacht d'Schrëtt aus dësem Abschnitt just, wann dat Metaobject nach net als Filter derbäigesat gouf.

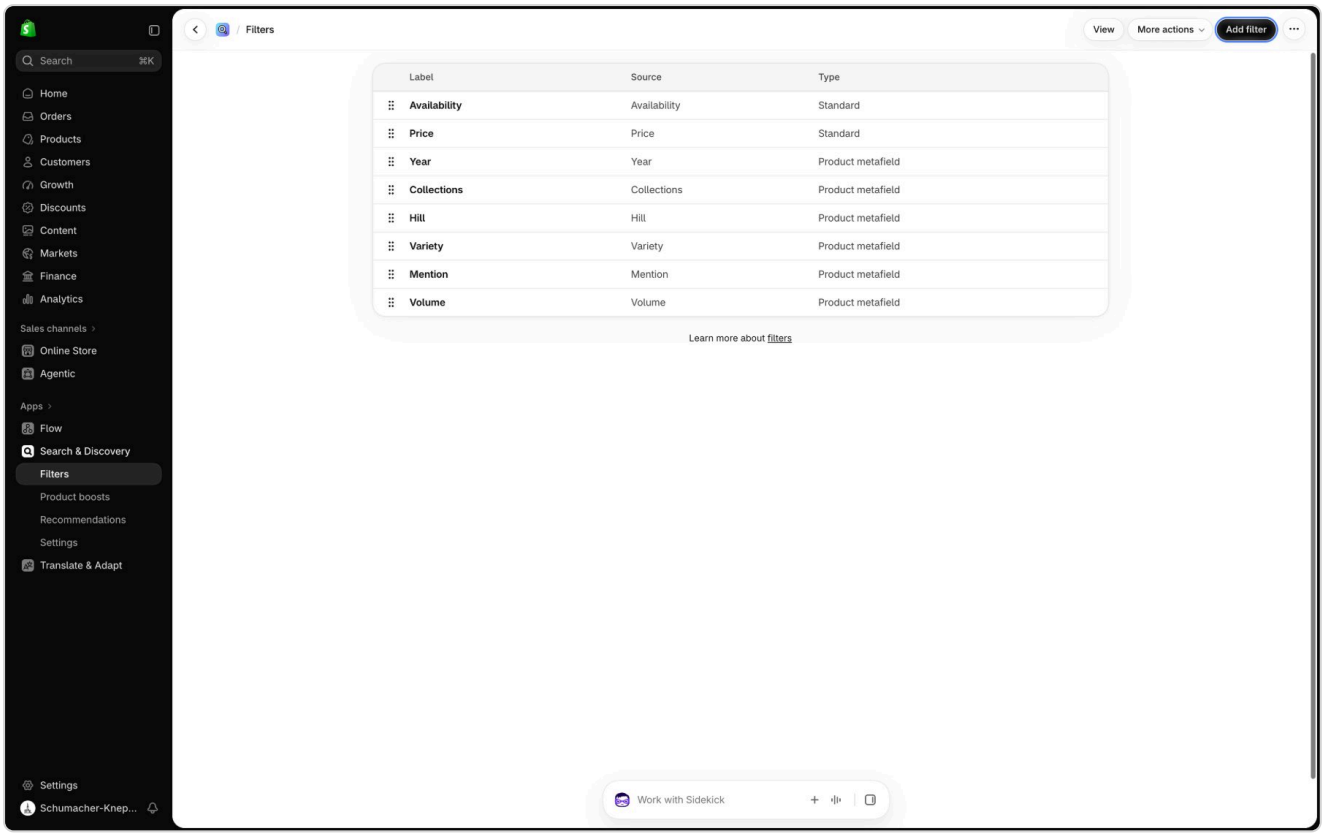

SCHRËTT 7 Nom Späichere klickt op **Search & Discovery**.
